Current Legal Issues

Seven days before the Great Electors meet to officially elect the next President of the United States, this conference will focus on the result(s) of the presidential election but also the other elections that took place on November 3 and what they tell us about the state of the US in terms or partisan polarisation and demographic evolutions. We will also discuss the institutional future of the country and how undecided it still is a month after the election and a few weeks before two senatorial elections in Georgia decide the political landscape of the next two years.

La conférence se déroulera en anglais.
